

CUSTOM CUT AND SEWN PRE FILTER
INNER WRAPS

Designed For LM6000 Composite Gas
Turbine Inlet Air Filters

Inner pre-filter wraps add an additional stage of filtration and help extend the service life of the composite filter.

FEATURES:

- *Designed to capture larger particles.*
- Comprised of 100% non-shedding polypropylene fibers.
- Ideal for wet & high moisture environments.
- Simple design made to slide into your filter and held open with our custom velcro strap.
